

NEED AN ELBOW WITH A BIGGER RADIUS

Picoma's XL-radius elbows help you work around obstacles and reduce sidewall pressure

When you have a project that calls for an elbow with a radius from 72" up to 150", Picoma is the answer. Picoma's XL-radius elbows help you overcome space constraints and allow for faster and safer wire-pulling by reducing sidewall pressure on medium voltage (MV) or 600V wire cable pulls. And, our XL-radius elbows are made in the USA with the highest level of quality.
